The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 8-10, 12-13, 15, 19, 20, 22 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Murphy.

Murphy discloses polymeric compositions comprising 10 to 90 % of at least one olefin homo or copolymers, 5 to 85 % polyethylene or ethylene alpha olefin copolymer grafted with 0.1 to alpha-beta unsaturated carboxylic acid or anhydride and 5 to 50 % reinforcing fiber (see claim 1). These compositions are seen as inherently possessing applicants claimed melt flow properties since the chemical limitations are met.

Claims 6, 7, 11, 14, 16-18 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
